5.1. REVIEW OF DURABILITY OF ROUNDABOUT #4 & DIRECTION REGARDING REPLACEMENT IN 2016

(TOWN MANAGER VIRGINIA EGGER)

6. ADJOURNMENT

TOWN COUNCIL REPORT

To: Mayor & Town Council
From: Danita Dempsey, Director of Festivals
Date: July 27, 2015
Re: Public Hearings for Outdoor Use of Amplified Sound Application Permit

The Town Council is asked to consider approving an *Amplified Sound Permit* on August 5th, 12th and 19th, as requested by Peak Performances for the Avon LIVE! Summer Concerts in the Park.

A **public hearing** is required on Outdoor Use of Amplified Sound for events that will be using amplified sound systems before 9:00 a.m. or after 8:00 p.m. in Nottingham Park, including Avon Performance Pavilion, on Sundays through Wednesdays (Avon Municipal Code Chapter 5.24.020). The Avon LIVE Summer Concerts in the Park start time for August 5th, 12th and 19th is 5:00 p.m. and end time is 8:45 p.m. Sound checks start at not earlier than 2:30 p.m. with live music starting at 6:00 p.m. each evening. The applicant states there will be no more than 88db (decibels) with a C-frequency weighting, international standards of measurement of sound pressure levels, at approximately 200 feet from the origination of the amplified sound.

Please note the public notice was published as required in Avon Municipal Code for public hearing on Tuesday, August 4, 2015. The \$25 processing fee for the amplified sound permit has been waived per Festival Agreement between the Town of Avon and Peak Performances. The applicant has been invited to attend the meeting.

Background Information for Issuing Amplified Sound Permits:

The Ordinance 15-07 amending AMC 5.24, Section 9.12.080 provides the framework for issuing this type of permit.

The Council, in making its decision to issue the Amplified Sound Permit, may consider the following:

- 1.1. Comments by the public.
- 1.2. Necessity of the permit for the cultural, historical or social benefit of the community.
- 1.3. Proximity of the proposed location to residential neighborhoods.
- 1.4. Proposed direction of sound projection.
- 1.5. Screening of sound from neighboring properties.
- 1.6. Compatibility with other uses and activities in the vicinity.

The Town Council may prescribe any conditions or requirements deemed necessary to minimize adverse effects upon the community or surrounding neighborhood.

TOWN COUNCIL REPORT

To: Honorable Mayor and Town Council
From: Virginia Egger, Town Manager
Date: July 31, 2015
Agenda Topic: Review of the Durability of Roundabout #4 and Direction Regarding Replacement in 2016

SUMMARY:

The Avon Planning and Zoning Commission approved the current Town Center structure in Roundabout #4 in 2014, with a condition that the installation be replaced by not later than June, 2016. The current structure, while not requiring Town Council approval, also received the Council's approval and funding in the amount of \$75,000. It was designed specifically of beetle kill blue pine to match other structures being constructed for the 2015 *World Alpine Ski Championships* in Vail and Beaver Creek resorts.

The decision was part of a larger master plan for the development of Possibility Plaza and the Main Street Mall, which included the relocation of the dominant bronze from Roundabout #4 in order to bring an identifiable wayfinding monument to the Plaza. The direction of the plan called for Roundabout #4 to be differentiated from the other bronze roundabout statues in order for the "center of town" to be known by a unique and interesting art piece. The Council has adopted in its *Five-year Capital Improvements Plan*, a funding allocation of \$250,000 for the replacement work, including design fees.

Over the past few months, staff, with an ad hoc committee comprised of Council, Planning and Zoning Commission, architect and art dealer representation, issued an RFP for artists to design the permanent structure. From the responses, the committee selected four (4) qualified proposals to complete a detailed design for Roundabout #4, with final selection of the successful artist to be decided by the Council. Each artist has been granted a stipend of \$2,500 for the work and travel to Avon for presentation at Council on September 8th.

DURABILITY OF CURRENT STRUCTURE

Town staff recently reviewed the durability of the current structure with John Kelly, EPS-Doublet, who manufactured and installed the art piece. Mr. Kelly shared with staff that the structure was engineered as a permanent installation and can be expected to last 10 – 15 year with no upkeep. The timbers can be stained over time to maintain a fresher look.

COUNCIL REVIEW

Mayor Jennie Fancher has asked for this item to be on Council's work session. With the new knowledge of the long term nature of the current installation, the discussion before Council is to consider whether the process to design a different installation should continue to proceed at this time.
