(1) = Crowd size based off peak day

The consumption of food, liquids, beer and other alcoholic beverages will increase usage by 15-20%

Weather should also be factored however generally, warmer weather may increase usage

Generally, each person will use the facilities once every four hours with mix 50% male/female - higher percentage of women add 15-20%

5% of total standard units must be ADA compliant; if clustered in groups 5% of the cluster must be ADA compliant

One handwashing station per 20 standard units is recommended

Handwashing = \$75/pr

Delivery for POL & HW = \$25 each

Removal \$25 each

Standard and ADA = \$125/per; 6 units and over are \$80/per
